Dear Mrs Booth,

This is a story about a day at the beach with an intelligent dolphin that likes to explore the ocean. Once upon a time there was an intelligent dolphin and her name was Jenifer and she loved to explore the bottom of the ocean. So the next day she went to her new dolphin school and she learned how to be safe on the top of the water. But one day she went on the top of the water and there were students from Sherman Central school and a wonder full principle Mrs. Booth. So that day she was made that she didn't listen to her teacher. The next day her

teacher was upset with her but  
her teacher was happy and upset  
with her at the same time.

But she is the smartest dolphin  
ever. So the next day she saw  
a new dolphin and her name was  
Abby Grace Mellors. Her age is  
8 years old and she has a best  
friend and he is a turtle.

Star best Student,  
Abby
