

Dear 6th Grade Families,

The items below will prepare your eager students for their first day of the 2021-2022 school year. This year each academic course is going to have its own color. Social Studies will be red, Math will be green, ELA will be black, and Science will be blue. Folders purchased for these classes will be color coded to promote better student organization.

During this school year each child will be issued an I-Pad device to use on loan for the entire school year. With this electronic device team teachers will be able to create more reliable communication with students and parents. Each I-Pad will also allow for online homework, organized agendas, and additional family support. We are very excited to be in a position to offer our kids such a wonderful opportunity to enhance their educational experience here at Sherman.
